DETAILED ACTION

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1, 4-7, and 10-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Mayes et al. (U.S. 6,632,883).

Mayes et al discloses substantially as claimed throughout the entire patent.

Response to Arguments

2. Applicant's arguments, see amendment, filed 11/29/2004, with respect to the rejection(s) of claim(s) 1-18 under Kokish et al '221 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Mayes et al. (U.S. 6,632,883).
